

Akram Hany Ahmed

Job Title { Front-End Developer }

 Email  01026458206  Portfolio  LinkedIn  GitHub  Mansoura, Egypt

SUMMARY

I am a Front-End Developer with strong experience in building modern, responsive, and user-friendly web applications using React, Next.js, TypeScript, and Tailwind CSS. I have hands-on experience developing complete management systems, dashboards, authentication flows, API integration, and role-based applications. I also have a good understanding of Back-End concepts, including REST APIs, databases, authentication, and server-side development, which helps me build and understand full-stack applications effectively. I am a problem solver who enjoys researching, learning new technologies, and continuously improving my skills. I am focused, adaptable, and committed to writing clean, maintainable code and delivering high-quality projects on time.

PROJECTS

Lab Management System

[GitHub](#) [Live Demo](#)

- Framework, Tools and Programming Languages used: Next.js 16, NextAuth, Tailwind CSS, TypeScript, HTML5, JavaScript
- Technologies and Hooks: useState, useEffect, async/await, React Hooks, Next.js App Router
- Features available in the app: Manage patients, employees, laboratory tests, appointments, and test results, with role-based access for Admin, Employee, and Patient users

Hotel Management System

[GitHub](#) [Live Demo](#)

- Framework, Tools and Programming Languages used: Next.js 16, Zustand, CSS, HTML5, JavaScript
- Technologies and Hooks: useState, useEffect, Zustand for state management, localStorage for data persistence
- Features available in the app: Room management system, booking creation with client data, real-time room status (available/booked), edit and cancel bookings, checkout system with invoice generation, countdown based on check-in/check-out dates, and dashboard interface for managing hotel operations

PROGRAMMING LANGUAGES, FRAMEWORKS & TOOLS

HTML5	CSS	Tailwind CSS	JavaScript	TypeScript	Next.js	API Dog	Zustand	Context API
